

Workshop on Arrangements

December 6 – 8, 2000

Wednesday, December 6

- 09:15 – 10:15 (HG G 26.5) **Sergey Yuzvinsky** (University of Oregon, Eugene)
“Free arrangements and sheaves on projective spaces”
- 10:45 – 11:45 (HG G 26.5) **Hiroaki Terao** (Tokyo Metropolitan University)
“Multiderivations of Coxeter arrangements”
- 15:45 – 16:45 (HWZ) **Günter M. Ziegler** (Technische Universität Berlin)
“Fat-lattice polytopes: some constructions from reflection arrangements, rigidity, rationality”

Thursday, December 7

- 09:30 – 10:30 (HWZ) **Alexander Suciu** (Northeastern University, Boston)
“Fundamental groups of arrangements”
- 11:00 – 12:00 (HWZ) **Daniel Cohen** (Louisiana State University, Baton Rouge)
“Lie algebras associated to fiber-type arrangements”
- 15:30 – 16:30 (HWZ) **Giovanni Felder** (ETH Zürich)
“From local to global deformation quantization of Poisson manifolds”

Friday, December 8

- 09:30 – 10:30 (HWZ) **Giovanni Gaiffi** (Scuola Normale Superiore, Pisa)
“Real models of arrangements and conical stratifications”
- 11:00 – 12:00 (HWZ) **Mario Salvetti** (University of Pisa)
“Combinatorial methods for the cohomology of Coxeter groups”
- 14:30 – 15:30 (HG F 26.1) **Richard Randell** (University of Iowa, Iowa City)
“Cell structures on arrangement complements and Milnor fibers”
- 16:00 – 17:00 (HWZ) **Michael Falk** (Northern Arizona University, Flagstaff)
“Arrangements and matroids determined by their points and lines”

HG = ETHZ, Hauptgebäude, Rämistr. 101

HWZ = Hermann Weyl-Zimmer, ETHZ, HG G43
